RE: Supporting Comments - Sandwich Isles Communications, Inc.  
Petition for Waiver of the Definition of Puukapu Waimea, CC Docket  
No. 96-45

Dear Ms. Dortch:

I am a resident of the Puukapu- Waimea Homestead Project and have heard many great comments from neighboring land owners where there are no infrastructures placed on or even near by their properties until Sandwich Isle Communication placed the much needed, underground telephone utility service.

This needed service assist many land owners, both young and old, including myself to communicate directly, one on one. On many occasions, I had to call the police, as outsiders raced - I mean speed- by or to go as far as parked outside my home in our rural and remote area to deal, sell and promote drugs, drink, party and then become obnoxious, but the worse, rustling was occurring on many properties where partial dead caucus where left and found. I have young children and want them to grow up in a safe environment, that is why the phone service here is so important. Especially, on occasions where I must leave my children behind, if any emergency arises, they are bale to communicate directly with me.

I appreciate that you had granted the study area waiver with Sandwich Isle Communication for this reliable and affordable service. I ask humbly for your speedy and favorable determination for all who may need this service now and in the future.

Sincerely,  
G.K. "Pua" Correa
